I'm
so...
pitiful.

I got
this
picture
book
when I
was
really
small...

It'll give
you the
power of
courage
when you
read this
book ♪

Kurumi...
This is a
magic
picture
book, you
know.

The
picture
book was
written of
a troubled
foreign
lord...I
still don't
really
understand
the con-
tent, but...

Since
then...
I've
always
opened
this book
whenever
I was
sad.

To the point where it was like I was the one laughing and crying...

However... Even so, I was also deeply intrigued with the book's main character, the tiny protagonist.

by the fairy's magic, she was given the body she wanted, an adult's body. Definitely... This sort of story I still believe in.

In the finale... As a reward for being able to master up a tiny bit of courage.

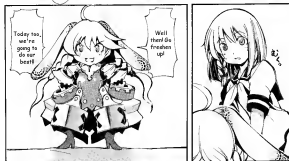

"Self!"

"Fue..."
"Hid..."
"Uh..."

I wish... I'd could be reborn with courage.

I also... want to be... strong.

And then, in exchange for allowing that human to use them... is how a Cap-pella can operate in the human world!

Exceedingly strong dreams!!

The spirit world's inhabitants, the Cap-pellas, can appear in the human world once summoned by strong thoughts and dreams from a human.

Spirit World

Constantly... Realistically... In order to open the "door" to the parallel worlds, you must've cap-pellantly prayed with a sincere wish to that book!

It's not easy to do at all. It requires great skill!
